# henry | bench

## item

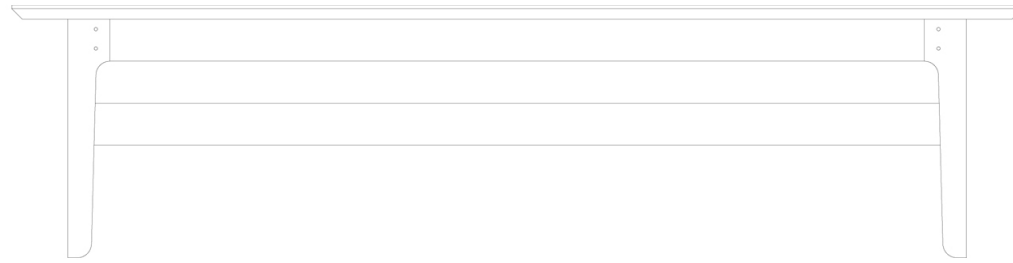

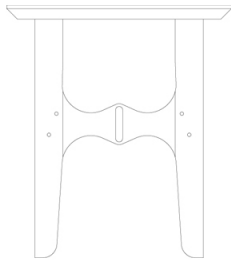

HB-01

## specs

henry bench  
solid wood construction  
wedged tenons  
pinned mortise and tenons

## dimensions

72"w x 16"d x 18"h

## details:

Thrasher Works' dining table bench is created with traditional joinery and nontraditional sculptural lines. The bottom stretcher has a wedged tenon connection and the top rails are joined to the body with pinned mortise and tenons. The Henry Bench's legs, rails and stretchers are hand sculpted in a style reminiscent of Sam Maloof. Standard in American black walnut or rift sawn white oak. Custom sizing, materials, and finishes available; please call for a custom quote.
